Teaching Excellence Framework: Year two

Statement of findings

University of Winchester

UKPRN: 10003614

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that students from all backgrounds achieve excellent outcomes. The metrics indicate very high levels of student satisfaction with academic support.

The Panel considered the University submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- appropriate contact hours, personalised learning through tutorials and buddy schemes that provide high levels of engagement and commitment to learning and study from students
- an institutional culture that facilitates excellent teaching through professional development schemes, teaching awards, and promotion schemes
- an institutional approach to developing high quality physical and digital resources, which together with student-based research projects aid and enhance learning and develop study and research skills
- course design and assessment practices that provide sufficient stretch to ensure most students make progress, and acquire knowledge, skills and understanding that are valued by employers including by working closely with industrial partners in course development and approval.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
