Teaching Excellence Framework: Year two

Statement of findings

City, University of London

UKPRN: 10001478

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that most students achieve excellent outcomes, particularly in highly skilled employment and further study. Non-continuation is, however, below benchmark for all students. The metrics indicate consistently excellent levels of student satisfaction.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a strategic perspective on all key areas that align with TEF criteria, specifically learning experiences, student satisfaction and assessment and feedback
- investment in physical infrastructure, which has high levels of impact on student learning and satisfaction
- strong engagement with students and the Students' Union
- a highly valued focus on excellent assessment and feedback
- the consistent implementation of a culture of teaching excellence for all staff.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
