Teaching Excellence Framework: Year two

Statement of findings

University of Wales Trinity Saint David

UKPRN: 10007858

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes, although the metrics indicated that outcomes in relation to highly skilled employment are notably below the provider's benchmark. The metrics indicate good levels of student satisfaction with academic support, and assessment and feedback. Students continue with their studies at levels in line with the provider's benchmark.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects in particular, evidence of:

- a culture of personalised learning, in small classes, which aims to ensure that students are effectively supported and are challenged to achieve their full potential
- Welsh Medium and Welsh Language education is deployed in ways that support, stretch and challenge the student body
- the involvement of both staff and local employers and relevant professional bodies in relation to course design including work-based learning programmes.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
