Teaching Excellence Framework: Year two

Statement of findings

Salford City College

UKPRN: 10005032

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that most students achieve good outcomes. For part time students, progression to employment, highly skilled employment or further study is below benchmark and student satisfaction with assessment and feedback and academic support are above benchmark.

The Panel considered the College submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a developing culture of strategic intent in relation to recognising and promoting teaching excellence
- sufficient stretch to ensure the development of skills and attributes appreciated by employers
- a range of initiatives related to employment or progression to further study
- a congruence of mission with the needs of the local community, and an aspiration to develop pathways to higher education for all.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
