Teaching Excellence Framework: Year two

Statement of findings

London Studio Centre Limited

UKPRN: 10004079

TEF Silver

This award was made in June 2017 and is valid for up to one year.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that students achieve excellent outcomes in terms of exceptionally high levels of continuation. Metrics for employment and highly skilled employment are below the reportable threshold, however, there are clear indications in the submission that the majority of students progress to employment, highly skilled employment or further study. The metrics indicate high levels of student satisfaction with teaching, academic support, and assessment and feedback.

The Panel considered the submission in relation to the TEF criteria and its judgement reflects in particular, additional evidence of:

- an intensive and effective approach to learning and teaching that ensures that students are consistently stretched and motivated
- extensive performance opportunities and close working with industry professionals facilitating progression into employment
- an institutional approach to developing physical resources, which are used frequently by students to aid and enhance learning and student impact on learning.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
