TEF Gold

This award was made in June 2017 and is valid for up to two years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that all groups of students achieve consistently outstanding outcomes. The metrics indicate that student satisfaction and progression to highly skilled employment or further study are notably above benchmark.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- well established and consistently strong links to employers and the legal profession which are developed within both teaching and extracurricular activities
- course design and assessment practices which provide scope for outstanding levels of stretch and which ensures that all students are significantly challenged to achieve their full potential
- notable assessment and feedback methodologies which provide many personalised development opportunities for students
- a culture of professional practice and teaching excellence which is embedded with academic staff continuing involvement in professional practice.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Gold award.
