Teaching Excellence Framework: Year two

Statement of findings

Chichester College

UKPRN: 10007817

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that all students achieve excellent outcomes in relation to progression and retention, which is notably above benchmark. The metrics indicate high levels of student satisfaction in teaching, academic support, and assessment and feedback.

The Panel considered the College submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- student engagement in teaching observation and enhancement which encourages students to actively commit to their studies
- investment in an HE Adviser to support students in achieving their educational and professional goals
- an institutional culture that facilitates, recognises and rewards excellent teaching that has been implemented but not embedded across the provider
- work-based assignments and assessments developed together with local industry to support students in their progression to highly skilled employment or further study
- face-to-face feedback provided for students to support their development, progression and attainment
- an undergraduate study skills programme designed jointly by students and staff which helps students attain independence, knowledge, understanding and skills that reflect their full potential.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
