Teaching Excellence Framework: Year two

Statement of findings

Leeds City College

UKPRN: 10024962

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. The provider is notably below benchmark on assessment and feedback and on non-continuation for both full-time and part-time students. The provider is above benchmark for employment or further study for full-time students.

The panel considered the College submission in relation to the TEF criteria and its judgment reflects in particular, additional evidence of:

- very strong intake figures from low participation areas and from mature students
- course design and assessment practices which provide sufficient stretch that ensure most students make progress, and acquire knowledge, skills and understanding that are valued by employers
- a significant number of alumni who have set up successful businesses which have employed other graduates and who have also returned to College to share their experiences with and mentor current students
- pre-induction support that is well developed and includes bespoke welcome events for international students and those with a disability.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
