Teaching Excellence Framework: Year two

Statement of findings

Aylesbury College

UKPRN: 10000473

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics give limited significant data about the student experience, progression or outcomes due to small student numbers; NSS data are only available for year 1, and the provider submission does not present additional data that indicates how students view their courses, or the impact of any student feedback. However, it was noted that the metrics for teaching on my course and highly skilled employment or further study are above benchmark.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- appropriate course design underpinned by robust processes
- adequate resources to support the student learning experience
- opportunities for stretch being provided through the Buckinghamshire Education, Skills and Training (BEST) initiative, and through the developing relationship with the partner University
- the HE forum providing opportunities for the sharing of good practice at the higher education level through a range of activities.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
