Teaching Excellence Framework: Year two

Statement of findings

Brunel University London

UKPRN: 10000961

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that students achieve excellent outcomes, particularly with regards to employment or further study. The metrics indicate excellent levels of student satisfaction with academic support from students of all backgrounds, notably exceeding the provider's benchmark. The metrics further show that the University is achieving high levels of student retention.

The Panel considered all the information in the provider's submission in relation to the TEF criteria and its judgement reflects in particular, evidence of:

- a strategically targeted and consistent approach to increasing employability
- an analytical approach to addressing attainment gaps within the institution's diverse student body
- innovative assessment practices which help students to make the transition to study
- an assessment strategy which consistently stretches and challenges students
- high levels of employer engagement and opportunities for work experience.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
