# Teaching Excellence Framework: Year two

## Statement of findings

## University of East London

UKPRN: 10007144

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The University metrics, supplemented by the submission, indicate that most students achieve good outcomes, however, progression to employment and to highly skilled employment or further study is below benchmark for this University. Student satisfaction is below benchmark for teaching, assessment and academic support; the Panel noted that this is partially addressed in the provider submission. Students' continuation metrics are above the University benchmark for full and part-time students.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects in particular, evidence of:

- course design and assessment practices that provide sufficient stretch and support student retention
- personalised support for the University's diverse student body
- investment in physical and digital resources that are used by students to further learning particularly in relation to campus laboratories, sports facilities and library
- an institutional culture that facilitates, recognises and rewards teaching excellence including student led teaching awards and investment in a Centre of Excellence in Learning and Teaching.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
