Teaching Excellence Framework: Year two

Statement of findings

The University of Hull

UKPRN: 10007149

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that students achieve excellent outcomes. Very high proportions of students continue with their studies and progress to employment or further study. Progression to highly skilled employment is consistently high, with the provider notably above benchmark for some student groups, including part-time learners. The metrics indicate very high levels of student satisfaction with teaching on my course and academic support, although the provider is below benchmark for some part-time student groups in relation to assessment and feedback. The Panel deemed this was partially addressed in the provider submission.

The Panel considered the University submission in relation to the TEF criteria and its judgement reflects in particular, evidence of:

- a commitment to personalised learning via tutorials and attendance monitoring that provide high levels of engagement and commitment to learning and study
- high levels of stretch including integrating employment skills by working closely with industrial partners in course development and review
- an institutional approach to developing high quality physical and digital resources, which are used frequently by students to develop study and research skills
- an embedded institutional culture that facilitates and recognises excellent teaching through high quality support for staff, peer observation, and a comprehensive professional development programme.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
