Teaching Excellence Framework: Year two

Statement of findings

Trinity Laban Conservatoire of Music and Dance

UKPRN: 10008017

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve excellent employment outcomes. Very high proportions of students progress to employment, highly skilled employment or further study, notably above the provider's benchmarks. While students are satisfied with teaching, student satisfaction with academic support and assessment and feedback are considerably below the provider's benchmark.

The Panel considered the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- satisfactory levels of stretch and challenge provided through routine engagement with postgraduates, industry professionals and alumni
- high quality physical and digital resources including a specialist library and excellent technical facilities
- the atypical and diverse nature of the student body, whose needs are met through personalised and innovative support
- the Conservatoire's support for staff in achieving recognition as teachers in higher education and engagement with sector bodies in promoting and celebrating teaching excellence
- a developing focus on student satisfaction.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
