Teaching Excellence Framework: Year two

Statement of findings

Hadlow College

UKPRN: 10002843

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. However, the College is significantly below the benchmark for the progression to highly skilled employment or further study for its full-time students. The panel noted the limited statistical significance of the provider's metrics and regarded the evidence in the submission as particularly important in reaching an overall judgement.

The Panel considered the College submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- the College's strategic approach to the development of, and investment in, its resources through its Business Planning Cycle which are used to aid students' learning and the development of their independent study and research skills
- programme delivery structured in a way that enables a degree of personalised provision with a range of support mechanisms for students, including transition
- a developing culture for supporting and recognising excellence in teaching and learning.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
