Teaching Excellence Framework: Year two

Statement of findings

Amersham & Wycombe College

UKPRN: 10000275

TEF Bronze

This award was made in June 2017 and is valid for up to two years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that while most students continue with their studies, continuation for some groups is below the provider's benchmark. The metrics indicate most students are very satisfied with teaching on my course, academic support, and assessment and feedback. The panel noted the limited statistical significance of the provider's metrics and regarded the evidence in the submission as particularly important in reaching an overall judgement.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- course design and assessment practices that provide sufficient stretch to ensure most students make progress
- most students acquiring knowledge, skills and attributes that are valued by employers and that enhance their personal and/or professional lives
- students' engagement with significant serving professionals, gaining skills that are valued by employers
- physical and digital resources that are used by students, including the College's new ICT suite for higher education studies
- personalised support that is associated with good engagement and commitment from most students to learning and study.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
