Teaching Excellence Framework: Year two

Statement of findings

London South Bank University

UKPRN: 10004078

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics indicate that most students achieve excellent outcomes. Very high proportions of some student cohorts progress to highly skilled employment or further study notably exceeding the provider's benchmark. The Panel deemed that the below benchmark levels of student satisfaction were largely addressed by the provider's submission.

The Panel considered the University's submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- appropriate contact hours, consistently high levels of personalised learning for a diverse student population by specialist staff and interactive learning that provide high levels of engagement and commitment to learning and study from students
- a mature institutional culture that facilitates, recognises and rewards excellent teaching through promotion opportunities; student-led teaching awards; and the academic framework
- course design which provides high levels of stretch and enables students to gain a range of skills and knowledge valued by employers with over half of its programmes having professional accreditation.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
