Teaching Excellence Framework: Year two

Statement of findings

BPP University Limited

UKPRN: 10031982

TEF Bronze

This award was made in June 2017 and is valid for up to one year.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics provide limited information because they have only recently started to deliver undergraduate courses, although progression into highly skilled employment or further study is notably above benchmark. However, the most recent student cohort indicated below benchmark satisfaction with assessment and feedback, and academic support, and the provider submission did not address these areas of concern.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a distinctive positioning as a teaching led, practice informed University that focuses on delivering professional development, which is supported by a broad range of professional accreditations
- innovative assessment methodologies, which focus on students' professional development
- substantial investment in the physical and digital resources used by students for further learning
- a developing culture that facilitates, recognises and rewards excellent teaching, and encourages student engagement.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
