Teaching Excellence Framework: Year two

Statement of findings

Grimsby Institute of Further and Higher Education

UKPRN: 10007938

TEF Bronze

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that most students achieve good outcomes. Student retention and progression into employment, highly skilled employment or further study is below the provider's benchmark. The metrics indicate high levels of student satisfaction with assessment and feedback for all students and most students indicate high satisfaction with academic support.

The Panel considered the Grimsby Institute of Further and Higher Education submission in relation to the TEF criteria and its judgement reflects in particular, additional evidence of:

- course design and assessment practices providing sufficient stretch that ensures most students make progress, with some instances of innovative assessment practices
- students effectively engaged in their studies with regular tutorials ensuring a personalised approach to learning and experience and sufficient levels of contact time on most courses
- a strong emphasis on the student voice
- significant investment in the physical and digital resources used by students to further learning
- a culture that facilitates and rewards teaching with a focus on pedagogical scholarship.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
