Teaching Excellence Framework: Year two

Statement of findings

Leeds Trinity University

UKPRN: 10003863

TEF Silver

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that students from all backgrounds achieve excellent outcomes. The metrics are notably above benchmark for highly skilled employment or further study, and assessment and feedback, and these areas of strength are exemplified by specific examples of good practice in the submission.

The Panel considered all the information in the provider submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- high quality course design, informed by professional input, and including an awareness of ethical and societal issues
- a supportive educational culture that promotes excellence in learning and teaching
- innovative assessment and feedback practices across the institution that are highly valued by the students
- excellent use of technology to support the progression of students, and the general educational provision
- strong levels of student engagement that indicate personalised learning
- high quality support mechanisms for employability including professional placements.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
