# Fee information for new entrants in 2025-26

This document provides information about the prescribed fee limits that apply to individual higher education providers and the maximum fees chargeable by that provider to new students starting courses in 2025-26. It shows the fee information for providers that are registered with the Office for Students (OfS) in the 'Approved (fee cap)' category as of 20 March 2025. A log of changes to this document is shown below.

## Data source and coverage

Fee limits shown here are the maximum fees chargeable by a provider to new students starting courses in 2025-26, with information provided for each different course type offered by the provider. Information is included for providers that are registered with the OfS in the 'Approved (fee cap)' category, whether or not they hold an approved access and participation plan.

Throughout, these fee limits are applicable in respect of 'qualifying persons' on 'qualifying courses' (who are also the focus of access and participation plans). These are prescribed by regulations made under the Higher Education and Research Act 2017. More information can be found in Regulatory notice 1 at: [www.officeforstudents.org.uk/publications/regulatory-notice-1-access-and-participation-plan-guidance/](http://www.officeforstudents.org.uk/publications/regulatory-notice-1-access-and-participation-plan-guidance/)

For providers that have an approved access and participation plan, information has been sourced in respect of the relevant plan at 20 March 2025, as follows:

- For providers that have an access and participation plan that came into force for either 2021-22, 2022-23, 2023-24 or 2024-25 (and is expected to remain in force for 2025-26), the maximum fee chargeable by the provider for each course type has been collected via the annual fee information document. More information about the annual fee information document can be found in the guidance at: [www.officeforstudents.org.uk/publications/annual-fee-information-collection-guidance/](http://www.officeforstudents.org.uk/publications/annual-fee-information-collection-guidance/)
- For providers that have a plan that comes into force for 2025-26, the maximum fee chargeable by the provider for each course type in 2025-26 has been collected within the access and participation plan approval process.
- Note that due to the government's announcement in November 2024 that fees would increase in line with inflation, some providers are using uplifted fees that differ from those submitted in their annual fee information document or within their access and participation plan. These revised fees have been approved through internal OfS processes.

For providers that do not have an approved access and participation plan that will be in force for 2025-26, the maximum fee chargeable by the provider for any course type is defined by the relevant fee limit prescribed in regulations made under the Higher Education and Research Act 2017. The information shown here for these providers reflects the prescribed fee limits for 2025-26, correct as of 20 March 2025.

Approval of access and participation plans is an ongoing process and plans may be varied (and re-approved) at any time. The maximum fees detailed here may change as a result of variations to plans, or approval after 20 March 2025 of new access and participation plans that will come into force for 2025-26.

## Legislative context

Maximum tuition fees for the 2025-26 academic year in England have been prescribed by the Secretary of State for Education in regulations made under the Higher Education and Research Act 2017. In completing its access and participation plan, a provider may choose to set its maximum fees at or below these prescribed fee limits.

The basic and higher fee limits prescribed in this way are shown in columns I and J of the data tables. The fee limits differ by course type and whether or not the provider held a valid Teaching Excellence Framework (TEF) award at the relevant time. The relevant time for holding a valid TEF award is prescribed by regulations made under the Higher Education and Research Act 2017 at: [www.legislation.gov.uk/ukpga/2017/29/schedule/2/enacted](http://www.legislation.gov.uk/ukpga/2017/29/schedule/2/enacted)

The prescribed fee limits listed in columns I and J of the data tables are based on a provider's regulatory status as of 20 March 2025. The regulatory status of providers is subject to change; up-to-date registration status information can be found in the OfS Register at: [www.officeforstudents.org.uk/advice-and-guidance/the-register/the-ofs-register/](http://www.officeforstudents.org.uk/advice-and-guidance/the-register/the-ofs-register/)

Further information about the current prescribed fee limits can be found at: [www.officeforstudents.org.uk/for-providers/equality-of-opportunity/access-and-participation-plans/fee-limits/](http://www.officeforstudents.org.uk/for-providers/equality-of-opportunity/access-and-participation-plans/fee-limits/)

## Important information

Users should refer to the provider's website for further details of the fee levels for individual courses. This is because:

- Providers may charge a range of fees for any given course type (for example, for different subject areas or for provision that is delivered through a subcontractual partnership).
- Maximum fees chargeable to students who started their courses before 2025-26 were detailed in access and participation plans and/or access agreements that were approved in relation to the student's year of entry.
- For part-time students, the fees charged may be dependent on the intensity of study and/or the study content for each student.
- Fee information for 2025-26 will be published separately from a provider's approved access and participation plan if that plan came into force from 2021-22, 2022-23, 2023-24 or 2024-25, or if a provider has made an approved amendment to their fee information since the publication of their plan.

If a particular course type has not been returned by a provider, the OfS assumes that this course type is not run at the provider. Consequently, without an access and participation plan being varied (and approved by the OfS) the provider would not be able to charge above the basic fee if it were to accept new students for these course types in 2025-26. Course types that the OfS assumes a provider is not running are shown in the data tables with an asterisk (\*).

The OfS records a copy of all the access and participation plans and access agreements that have been approved for a provider. Individual URLs are included in column K of the data tables and, for all providers, from the OfS website at: [www.officeforstudents.org.uk/advice-and-guidance/the-register/search-for-access-and-participation-plans](http://www.officeforstudents.org.uk/advice-and-guidance/the-register/search-for-access-and-participation-plans)

## Enquiries

For enquiries regarding the fee limits data, please contact:

Annalise Ruck, Principal analyst

## **Change log**

Version 1.0: 3 April 25

# **Fee information for new entrants in 2025-26, by provider and course type**

[note 1] The amount shown is the maximum chargeable in an academic year.

[note 2] Maximum fees chargeable for sandwich, Erasmus and overseas study years that are within accelerated degrees are not shown separately here. Further information about the prescribed fee caps for such courses can be found at:

<https://www.officeforstudents.org.uk/for-providers/equality-of-opportunity/access-and-participation-plans/fee-limits/>

If a particular course type has not been returned by a provider, the OfS assume that this course type is not run at the provider and it is shown in the data tables with an asterisk (\*).

A hash sign (#) after a provider's name indicates that approval of the provider's 2025-26 fee levels is pending.
