

Digital provision of information, advice and guidance (IAG) and outreach

Recent conversations with partnerships highlighted the need for the Office for Students (OfS) to coordinate information on the range of digital provision of IAG and outreach available during the coronavirus (COVID-19) pandemic.

The OfS Uni Connect team has undertaken a scoping exercise utilising a range of sources to develop a resource for partnerships that draws together digital provision of IAG and outreach from third party providers in one place. We recognise that this is not an exhaustive list and intend for this to be a live document that can be updated and shared on a regular basis.

Please note that this document is intended to be an information resource only. The OfS does not endorse any particular provider, platform or activity included within it.

Provider/ platform	Website and contact information	Summary of what provider does	Name of programme	What activities they provide online	Target age group	Evaluation
2-3 Degrees	https://2-3degrees.com/stay-ready-programme/ Contact: info@2-3degrees.com	2-3 Degrees delivers workshops, programmes and motivational talks. Apps for Good	https://docs.google.com/presentation/d/1iPHMuLVV-Sd-CAB9okoAhd_bkl0ugQSdqz_K-ihKifes/edit#slide=id.g31fa62a360_1_0 Contact: education@appsforgood.org	Enabling young people to problem solve using not only apps, but the internet of things and machine learning through their latest emerging technology courses.	Home Study	<p>Apps for Good support teachers, parents and students during the coronavirus pandemic. New versions of their courses that can be completed from home have been built, and their awards are open to classroom and home projects from across the world.</p> <p>These new courses are created and designed to support students working at home due to the coronavirus pandemic. At this time, their Home Study resources don't require any sign up, so students can get started straight away.</p>		Information on impact in 2018-19 generally rather than impact of the courses launched for coronavirus specifically. https://assets.cifassets.net/g6umu3wl1djc/3hgCYchK1wH6TL0LBFHlqw/ba86379489c6e683cec76596e70f7ef1/AfG_1page_Infographic_2018-19.pdf

<p>Bonas MacFarlane & Next Step Foundation (Register of Charities with the Registered Charity Number 1191176)</p>	<p>https://www.bonasmacfarlane.co.uk/en/udp</p> <p>Contact: David Wellesley Wesley, david@bonasmacfarlane.co.uk</p> <p>020 7223 2794</p>	<p>A 37 week, structured programme to prepare sixth formers for studying at and applying to university, particularly targeted to year 12 Oxbridge and Russell Group applicants.</p>	<p>University Preparation Programme</p>	<p>The university preparation programme blends advice and enrichment. It enables applicants to understand the specific requirements of particular courses and prepares them for the university entrance assessments required by many Russell Group universities. Subjects include personal statement, reading, maths, critical thinking, reasoning, data and statistics</p> <p>The nine month programme begins in January of Year 12, giving students the necessary time to develop the crucial academic skills needed to develop their applications. This gives students the time to work with academics on a weekly basis and be challenged on their readings and reflections, as well as giving students the opportunity to explore what it will really be like to study the subject that they think is right for them. Bonas MacFarlane aims to challenge students' intuition and intellectual arguments, constantly employing the academic rigour that they will be exposed to at the high-tariff UK universities.</p> <p>Students are introduced to current thinking and debates in British universities. They develop the critical thinking skills required for studying their subject at university level and learn how to document their academic progress. The programme's blend of subject enrichment and guided reflection aims to enhance all aspects of their performance</p>	<p>Year 12</p>

The Brilliant Club	https://thebrilliantclub.org/the-brilliant-club-for-pupils/info-for-pupils/ hello@thebrilliantclub.org	<p>The Brilliant Club exists to increase the number of pupils from underrepresented backgrounds progressing to highly-selective universities.</p> <p>This is done by mobilising the PhD community to share its academic expertise with state schools.</p>	Pupil resources	<p>A series of online resources which can be accessed free of charge and are suitable for pupils aged 10-18.</p> <p>The resources are themed around university knowledge, academic content and university skills, and will be updated on a weekly basis. Pupils will be able to watch masterclasses on a range of topics delivered by PhD tutors, access workbooks for independent learning and understand more about university life and the application process.</p>	10-18 year olds	An independent analysis carried out by UCAS shows the impact of The Scholars Programme for 2018-19 (rather than coronavirus- specific evaluation).

The Brilliant Club			The Scholars Programme Online	<p>Pupils participate in five, small-group tutorials, delivered online through video conference software. Pupils study supra-curricular content based on their PhD tutor's academic expertise.</p> <p>To support pupils on the programme, they are given access to a virtual learning environment. This moderated platform allows them to communicate with and receive support from their PhD tutor between tutorials.</p> <p>Pupils works towards the completion of a final assignment in the form of an extended essay (2,000 to 2,500 words). Pupils receive detailed, written feedback on a draft and on their final assignment. Schools would receive a full impact report detailing pupils progress during the programme.</p> <p>This programme can either be delivered in standard format (taking place roughly over a half term) or in condensed format (tutorials taking place over one week with an additional week for the final assignment). The programme can also be adapted to form part of a summer school.</p>	10-18 year olds	https://thebrilliantclub.org/wp-content/uploads/2020/03/UCAS-STROBE-External.pdf

The Brilliant Club			Academic subject programme	<p>Pupils study an academic subject designed by a PhD tutor based on their research. Pupils watch an introductory, pre-recorded taster session, which is followed by a guided academic reading task. Both are designed to prepare pupils to participate in a series of three online, small-group tutorials with their PhD tutor.</p> <p>PhD tutors use tutorials to check and deepen pupils' understanding. Pupils would be further introduced to university-style learning through structured academic discussion and analysis of key ideas.</p> <p>The programme ends with pupils submitting a short academic task (for example, a 1,000 word essay or a short recorded presentation). Pupils receive individual, written feedback from their PhD tutor.</p>	10-18 year olds
